

Regional ADVANTAGE

The Leadership Program of the Metroport Chamber

Presenting Sponsor

charles
SCHWAB

The Metroport Chamber offers a unique leadership program with the goal of developing region-minded leaders for our area. Our regional focus provides the opportunity for synergy and big-picture problem solving. By working together, we can anticipate and address the current and future needs of our region.

Relationships build Businesses build Communities build the Region!

That is the underlying theme of our leadership program. Participants will learn leadership skills and develop key relationships with business and community leaders. Students also will gain a better understanding of how our communities work, the needs of our region and the opportunities available.
